ATHARVA UNIVERSITY MUMBAI
Mrs. Lata Bhatia, Director (School of Computer Science and Applications), is an accomplished academic leader with over four decades of distinguished experience in education, institutional leadership, and academic administration. My aim is to play a key role in imparting quality training in the field of Computers, IT, Innovation, and Project based learning.
My Dear Students and Parents, my commitment is to provide continues support, counselling and mentorship at every step of your journey at Atharva University, Mumbai. The core curriculum rendered in IT includes training and grooming its prospects for achieving greater heights. With the advent of the information era, we are all set to establish our very own position in promoting knowledge-based education in areas like Computer Science, Application Programming, Internet Technologies, and related modern-world technologies.
"Your potential is limitless when combined with skills and the will to create."
